

## **OUR BIPOLAR IONIZATION TECHNOLOGY USED IN THE AIRPRO-PLUS WILL QUICKLY DEODORIZE, SANITIZE YOUR INDOOR AIR**

The AirPro-PLUS can quickly remove Odours (Tobacco, Mould, Mildew, Food), VOC's and Renovation Odours (Paint, Lacquer, Adhesives, Furniture).

Germs and Viruses (including Covid and Flu) are deactivated on contact from your guest rooms, public areas, meeting rooms, offices or clinic.

Your indoor air will smell fresh, clean and  
"Swiss Mountain-Top Pure"

# How ProMedUSA's Bipolar Ionization works to Eliminate Odours, Tobacco Smells, Mould, Mildew, VOC's and Deactivate Viruses (including Covid-19)

**Covid-19, Flu, Viruses, Odours, VOC's Mould and Mildew smells** are spread throughout your room by clinging on to tiny aerosol droplets. These droplets float around for 5 to 10 minutes in your room at the very level that you breathe. They are not sucked back up into the aircon filters. You inhale them, and can get infected quickly, or your sense of smell detects that offensive odour.

Our Bipolar Ionization continuously saturates this indoor air with powerful positive and negative Oxygen ions created by air passing over our Dielectric Barrier Discharge (DBD) Ionization Tubes. These tubes create a powerful **Cold Plasma Corona Discharge**, ionizing the Oxygen molecules and filling your room with these ions.

These + and - charged Oxygen Ions are attracted to and bond with these viruses, mould, mildew, odours (tobacco, renovation, paint, lacquer) PM10 and PM2.5 particles where they quickly deactivate or destroy them, or cause them to agglomerate (stick together) and drop out of your breathing range.

Your air is deodorized, sanitized and restored to what we like to say is "Swiss Mountain-Top Fresh". You and your guests will smell and see the difference.
